To Whom It May Concern:

I am a K-LOVE supporter and listener, and I am writing in reference to **MB Docket No. 04-233**. In my community, my family and I listen to 90.7 FM. K-LOVE serves me by providing positive and encouraging music, family-friendly programming, and wholesome values. K-LOVE provides a station my family can all listen to. K-LOVE provides family resources from various ministries, and these resources have helped me to be a better husband and father. K-LOVE has antidotes from other people, which encourages us all. K-LOVE offers opportunities to get help, whenever my family and I need counseling, prayer, or advice. They also provide us opportunities to witness to other people. K-LOVE broadcasts local events such as church functions, activities, festivals, and Christian music concerts details. We have found out about a lot of concerts that we have enjoyed because we heard it from our K-LOVE station. My husband and I have learned so much from the tips and advice that K-LOVE broadcasts about specific ministries, Christian authors, speakers, and mentors. K-LOVE has given us information about other churches in the area, and this is how we found the church we currently attend. Our K-LOVE 90.7 FM station has been an enormous blessing to our family.

If K-Love were displaced by an LPFM broadcaster, the effect on the community would be devastating. The local Christian community would have no other uplifting, positive, and encouraging radio station in our area. Churches would not be able to give information about their services, activities, and functions. Unfortunately, these churches would have low attendance and would be unable to reach the hopeless and deprived people. Christian concerts would have low attendance, thus our area would lose out on revenue from the concert. The residents of our community would suffer from the lack of positive and encouraging music and programming. Many residents would be lost without 90.7 FM K-LOVE, and their lives will not be the same. This LPFM broadcaster would provide other programming that would not benefit our community like K-LOVE. This LPFM broadcaster would provide other values, thus our family would not be able to listen to at all. Also, the LPFM broadcaster would not provide services to our community nor provide community and church information. They would not offer family-friendly programming. The quality and quantity of the programming would not be the same, therefore, it could not stand up to the reputation of K-LOVE. Our community would economically, socially, culturally, psychologically, religiously, and mentally suffer much anguish with the lose of K-LOVE 90.7 FM.

I believe that K-LOVE 90.7 FM is in the best interest of our community. K-LOVE provides quality and quantity of programming that is family-friendly and enriched with wholesome values. All children need positive and encouraging music with . K-LOVE provides our children in our community with this positivity and encouragement. It is important that people have hope, when they are hopeless. K-LOVE provides that hope. They service our community with outlets for local churches to spread the word about their upcoming events, functions, and services. These all are very important in a military community that we live in. There are so many people in our community that need this radio station. Many lives have been touched and lengthen by 90.7 FM K-LOVE. There is so much in our world that is so discouraging. K-LOVE provides pastors, counselors, and prayer 24 hours a day 7 days a week for our community, and residents in our community can call anytime. K-LOVE serves our community by providing easy access to their radio station with it being on the internet and provides opportunities to serve other people. They provide easy access to Christian based ministries and resources, community information, weather in our area, and news in our area. They serve this area by providing residents with information about Christian concerts in our community. Also, they send devotionals, Christian music magazines, and free bumper stickers by mail to listeners and supporters.

Sincerely,
Kevin J. Levert
